

**YOUR TRUSTED PARTNER
FOR POWER SOLUTIONS!**

Powering Autonomy
IN ANY ENVIRONMENT

DELIVERING TOTAL POWER SOLUTIONS, WHEN CLEAN POWER IS MISSION CRITICAL UNDER EXTREME HARSH CONDITIONS!

Acumentrics is a trusted market leader in Total Power Solutions for demanding, mission-critical military and heavy-duty industrial applications. For over 25 years, our RUPS™ (Rugged Uninterruptible Power Supplies) have provided an otherwise unavailable combination of clean power conditioning and battery backup. As a result, Acumentrics is a preferred supplier to many of the world's largest companies.

Modern military operations rely on computers, sophisticated communications systems, and other electronics to accomplish the mission. Warfighters depend on Acumentrics RUPS™ to continue the mission regardless of environmental conditions, power surges, spikes, sags, and interruptions.

We are now applying our expertise to other global applications and industries with compact, rugged portable power solutions. These solutions provide first responders, telemedicine providers, and disaster relief personnel with autonomy anywhere, anytime.

Acumentrics design and manufacturing teams are experts at understanding your requirements and delivering the most effective solutions. Whatever your power system needs; from power backup, rugged connectivity, cables, backplanes, PDU's, transit cases, racks, battery technology, and communication interfaces, Acumentrics can configure a system to fit your requirements, as it has done for many of the world's largest prime defense contractors and heavy industrial manufacturers!

ACUMENTRICS ADVANTAGES:

- RUGGED BY DESIGN
- MISSION CRITICAL RELIABILITY
- TRUE WORLD-WIDE INPUT
- CONFIGURABLE OFF-THE-SHELF DESIGNS

OUR PARTNERS TRUST OUR FULL LINE OF:

- UNINTERRUPTIBLE POWER SUPPLIES
- POWER CONDITIONERS
- PORTABLE POWER SOLUTIONS
- INVERTER SOLUTIONS

Power Supplies, Power Conditioners and Inverter Solutions from 100W to 24kW

Acumentrics Rugged-UPS™ products extend mission duration and boost effectiveness because they convert electrical output from almost any source, seamlessly backup power interruptions, and survive real world conditions. Our unique Flo-Thru™ design maximizes internal cooling while sealing electronic components from the elements. Our lightweight, durable aluminum chassis designs are able to withstand severe shaking and shock. Where other uninterruptible power supply products fail, ours thrive.
